NEWSTAPERARCHIVE®.

Almost every foreigner of distinction was Visits this country learns enough that is new to hen or that he thinks his countrymen do not know to fill a volume Nearly all of them write books about the builted States. It is will that this 1: so. As a nation we are worth knowing As long as all the nhabitants of Surps cannot come that those who do come will a Mineay that is one continue to write books and articles for be forms of import the New York 3 1/6 is afraid that certain.

The New York 3 1/6 is afraid that certain. elements of la ner can accrete will gass no time mid onlarge their mental range. It will inflate their minds they vigor of new ideas and the nourishment of strange knowledge. Votant a definition of an educated man is. One who is not matisfied to survey the universe from 1 is parsh beilty? This education is obtained by the affective of the affec The wise Ulysses was a man who had "seen at aboles of man's men and their clues?" So compared to have said that he regards the arrival of Lord Coloridge in New York be the country who it is supported to have said that he regards the country who it is a As the World survey and the same the same has a regards the country who it is supported to have said that he regards the on my visit to Amorios as equal is that of each cation at college. It is probably oper reason why so many college graduates fail in affire a steep the story are able to gain so hittle practical know edge of the world until it is look late or thou to learn. While they are confined to the country which made the right was the country which was the right was the country which was the country which was the right was them to learn. While they are confined to the quiet walks of college life the men with whem In another co tion are sharpoining their with and learning and the red target, at howgort to between the posterior and posterior and posterior and the foreign influence that has established.

In another connection in posterior and the foreign influence that has established.

In the between the posterior and posterior and posterior and the foreign influence that has established.

In the between the posterior and posterior anotation and posterior and posterior and posterior and posterior a

raise money among the millionaires of that (ity to build a college hall of some Lind They on to his parlor. They stated their business and be listened attentively until they cumbled, and then replied "I don't care nothing for them things" One secret of his great snotes in brainess was revealed in that reply The only interest he felt in a college was copf and to the amount of traffic it might furnish the cliff of the histograms in Germany while comprosing and education, say that he learned nothing t ere states from sira gulation which he could not have learned as well at home to sat down he easily on presidential booms in this country, and a great deal which the beautiful to sat down he easily on presidential booms in this country, and a great deal which the beautiful to sat down he easily on presidential booms in this country, and a great deal which the beautiful courses. For the Louisville Courses, Journal perfinently and a great deal which the beautiful states in the country, and a great deal which the beautiful courses, and the course of the course is knowing about "the steamship and the tail way and the thoughts that shake mankind
This will remove some of their buotry and broaden their minds if they come here with open eyes and impressionable numb. We loope that none of the foreign visitors who are some expected here will reinre contented to "survey the universe from their village be fig." If hey covers as to its adentite."

The Phi. palelining I miss does not believe in the index of the proper of the solution of the property of the voters as to its adentite. The Phi. palelining I miss does not believe in the world will government by clother in the survey of the voters as to its adentite. The Phi. palelining I miss does not believe in the survey of the voters as to its adentite. The Phi. palelining I miss does not believe in the world will be survey of the voters as to its adentite. The Phi. palelining I miss does not believe in the world will be survey and stock as go it quite of its like it.

The Phi. palelining I miss does not believe in the world will be survey and the voters as to the administration of the voters as to the administ

advice when the president has in several in stress gone against his judgmedt. Among the instances given is that of the exclusive of pauper and original immigration. This continues a great opportunity. But the New York Mott and Express thinks, has masted a great opportunity. But the New York Mott presented by the Norman question. When the steament of the Norman question when it is fifty thousand postmisters and its thousand postmisters and its thousand postmisters and its thousand postmisters and its thousand postmisters. The postoffice department, with the Mott of the Mott and Express thinks a greater opportunity is presented by the Norman question. When the steament of the Mott is fifty thousand postmisters and its thousand postmisters and its thousand postmisters and its thousand postmisters and its thousand postmisters. The postoffice department, with the Mott of the people to land when it is known that they in tend to violate the law of the United States against polygony in the territory of Utalit. In a spirited should in the September Ation-Kow in order to inform the public as to the existing law for the exclusion of pauper and American expects ago of the abuses of the abuse of the existing law for the exclusion of pauper and American excess system as controlled in the large of the expectation of pauper and a second and illustration of the expectation of the expectation of pauper and a second and illustration of the expectation of the ex

m prevailed.
The statutes restrictive of immigration are four in The statules restrictive of inimityration are referred institute. The statules restricted intriving (sections 2156-2164) firbid in the proposed intriving sections 2156-2164) firbid in the proposed in 1575, shap late. The restrictions here are against "persons who are undergoing a southce for convictions in their own company of felo lounce climes other than political or growing out of the restriction in their own companies has been expected for the purpose of "restriction," and woman imported for the purpose of "restriction," and the contract of the proposed restriction in the proposed restriction in the proposed restriction in the proposed for the purpose of "restriction," and the contract of the proposed restriction in inom. gration of Obinetes for a period of an pears (4.
